Now the SSL product server has been installed in WHMCS

## 1. Authentication

Prepare your API KEY to create your first SSL product

## OTE

User: 10578 Password: 654123 APIkey: v}k5s(`ipc\$G~koH

To Switch to TEST mode, you don't need to enter the APIkey and user ID again, just tick on the Checkbox of 'TEST Mode'

#### Live

Get your live api key through here https://onlinenic.com/cp\_english/template\_api/get\_api\_key.php

## 2. Create your first SSL product

Here we give an example to create a DV SSL product list. You can create other SSL products with the same procedure

#### Create a group

Go to Setup>Product/Services> Product/Services

Product Group Name : Domain Validation SSL

Product Group Headline: Most popular SSL provided by leading certificate authorities, issued

#### in mins!

Product Group Tagline; Recommended for small websites and projects with no need to gain higher trust level by end customers.

Group Features:

- Issued in mins,
- Static Site Seal logo,
- unlimited free reissues,
- unlimited server licensing,
- Google Rank booster and 30-day money-back guarantee

#### Edit Group

Product Group Name	Domain Validation SSL	
Product Group Headline	Most popular SSL provided by leading certificate authorities, issued in mins!	
Product Group Tagline	Recommended for small websites and projects with no need to gain higher trust level by end customers	
	Features added here will be available in a product group for display.	
	Issued in mins	8
	✤ Static Site Seal logo	×
